

OceanWatch Australia works with the seafood industry and the community to ensure Australia's marine environment is healthy, productive, valued and used in a responsible way.

Marine pests

- ❖ Marine pests threaten Australia's unique marine environment and marine industries
- ❖ Over 250 introduced marine plants and animals have hitch-hiked into Australian waters
- ❖ Once they become established, marine pests are almost impossible to eradicate.

Be aware of marine pest species and methods to prevent translocation

- ❖ Learn more www.marinepests.gov.au
- ❖ Learn more about [National biofouling guidelines for recreational vessels](#)
